Association, now in progress in the Zane block on the west side of Main street, between Eleventh and Twelfth streets, was much larger than that of the second day laty year and far in excess of what the managers had hoped for. There was a constant stream of visitors all day and at times last evening the place was crowded. Every one was well pleased with the exhibit, and the indications now are that the attendance will continue larger until the close of the exhibition Friday night. The show is one well worth a visit and careful inspection. It is now in complete order and the thousand and odd fowls that are to be found in the several classes make a most interesting and attractive eight. There is hardly a classe or a breed, even of the most famous and rare strains, that is not represented in this very creditable exhibition, and many of the leading exhibitions, and many of the leading exhibitions are people living right bere in and about Wheeling who, as fine poultry breeders, have been so successful as to give Wheeling quite a name as a poultry sontre. The show should be patronized, if for no other reason than to encourage the efforts the local breeders are making to make Wheeling known.

Not the least interesting feature of the show is the judging of Mr. B. N. Pierce, of Indianapolic, the famous poultry judge and fancier, who is retained by the Association to do this work. The games are attracting considerable attention. The exhibition is open daily from 9 A. M. to 10 r. M., and will close at the last name hour Friday night. The premium ribbons are all of satin printed in gold as follows: First, red; second blue; third, green; reveptakes, black. First premium birds must score not less than 90 points; acond, 87; third, 85; fourth, 83. No record is kept of birds scoring below 80 points, and no score card is issued to such.
